15B. CONTRACTOR/OFFEROR		15C. DATE SIGNED		16B. UNITED STATES OF AMERICA		16C. DATE SIGNED	
_____ (Signature of person authorized to sign)				BY _____ (Signature of Contracting Officer)		05-Jul-2002	

(13) The Contractor's employees whose job is to maintain mechanical systems on station shall be kept current of industry advancement by requiring employees attend training courses necessary for them to perform their job. A suggested list of courses is as follows:

2 employees Direct Digital Control courses

2 employees Large Screw and/or Centrifugal Chiller courses

This training can be discussed further after award of contract between the Contractor and the Contracting Officer Representative. At that time, needs shall be discussed and courses can be added or deleted. The Contractor shall, also, be responsible for the training of necessary personnel in the use of the software provided by the Government. All cost for training should be included in the Estimated Cost.

(14) The Contractor is responsible for obtaining the necessary facilities on site for Contractor personnel. One 12' x 12' shed, used for parts and storage is furnished by the Government. The same site as the existing facilities shall be used. The site provided for Contractor facilities is at the corner of South Platte Road and Atchafalaya Circle at the South East corner of Building 6006. The area is approximately 10,600 Sq. Ft. including parking and a driveway. All utilities will be Government furnished except phone lines.

(15) The Government will determine ADP needs for this contract and supply and maintain all computers and software (exclusive of budgetary and cost accounting systems software). The Contractor will be responsible for supplying and maintaining printers. The Contractor shall not bring any computers to the station for use in the contract for security reasons.

(16) Comply with all legislation that pertains to or governs any aspect of HVAC systems, particularly refrigerants (i.e. Clean Air Act).

(17) Comply with US Army Corps of Engineers EM 385-1-1 Safety and Health Requirements Manual (1996). This manual is distributed in electronic format on the internet at the HQUSACE Publication Library website located at <http://www.usace.army.mil/inet/usace-docs>. (Look under Engineer Manuals.) The Contractor shall strictly comply with this manual as it relates to activities under this contract and also routinely discuss applicable provisions of this manual with all employees.

(18) Provide the Government representative performing the cost monitoring with a list of materials purchased every month. This list should include three (3) quotes with the name of the business providing the quote for all material costing more than \$2,500.00. Latitude is given in the case of emergencies. See C.8.3.

(19) The equipment listed below shall be checked daily including weekends and holidays. This equipment must be maintained in operating condition due to the impact on various operations performed by the Government. Check equipment per manufacturers recommendation and for specific laboratory test requirements. Test requirements may include uninterrupted temperatures, pneumatic air pressures, vacuum, and electrical and safety requirements for fume hood air flow. Auxiliary equipment (pumps, regulators, water supply, etc.) is visibly inspected. All data for the major equipment shall be logged daily. The list of equipment is as follows:
